The innovation forum "Innovative Data Sharing: Pioneering Solutions for Societal Challenges" will bring together key actors from academia, policymaking, the private sector, and civil society to explore the critical role of data sharing and management in addressing pressing socio-economic challenges.

Through engaging discussions and the exchange of best practices, we will elaborate how data can drive innovative solutions to socio-political issues, fostering collaboration across sectors.

Please mark your calendars and save the date. The registration for the event is now open and the form could be accessed through [eu.needsmap.global/innovation-forum/register](https://eu.needsmap.global/innovation-forum/register) or scanning the QR code.

We look forward to your participation and hope to see you there!
